■ AMBASSADORS

Live from the show floor

Check out the materials, systems, and products seen at the International Builders' Show and JLC Live on the [@finehomebuilding](#) TikTok.

■ FINEHOMEBUILDING.COM

Track-saw tips and techniques

Read the head-to-head test on pp. 36-41, then watch this series of tips for smooth, clean cuts with a track saw. [FineHomebuilding.com/track-saw-tips](#)

■ SHARED ON SOCIAL MEDIA

Roof-flashing details

On the [@finehomebuilding](#) Instagram, we're breaking down building science mistakes to avoid—including skipping flashing details. A commenter asks, "What's the rationale for nailing the step flashing to the roof deck and not the sidewall?" Follow us and join the conversation.

■ HEARD ON THE PODCAST

Pipes that won't drain

The crew talks about off-site construction, sealed crawlspaces, and overflowing laundry standpipes. [FineHomebuilding.com/podcast](#)

■ E-LEARNING COURSES

A path to better indoor air quality

In this six-part online course, learn how to approach design, construction, and maintenance with indoor air quality in mind. [FineHomebuilding.com/indoor-air-quality](#)

■ FROM THE FORUM

How can I eliminate bouncy floors in my old house?

Hop onto the forum to chime in or to ask your own building questions. [FineHomebuilding.com/323-forum](#)
